Scope and content note

The Bill Barvin Location Photograph Archive contains over 3,000 35mm negative strips and around 1,000 3.5x5 and 4x6 prints of locations Barvin scouted for potential use in movies, television, and video. Most of the locations photographed were located in New York and New Jersey, but some were photographed in Connecticut and Pennsylvania. Images are of interiors of occupied and unoccupied apartments, lofts, homes, businesses, schools, churches, theaters, laundromats, factories, prisons, warehouses, and offices along with exteriors of properties as well as street views of larger exterior locations. Some of the materials are identified as related to specific television, film, and video properties, but most photos are arranged according to location by state and then city.
