</table>
1. Arrangement within the group is as follows: Those registers which contain name-lists only, or those volumes largely made up of such lists, precede other material [minutes, etc.] & have their own alphabet.

2. Board Minutes frequently include attendance records of board members.

3. Burials of dependent members are noted in the Poor Fund Accounts.

4. Church History has not been attempted & information concerning the formation, pastors & history of NYC churches will be found in the following:

   Seaman, Samuel A. *Annals on New York Methodism...1766-1890*.
   NY: Hunt & Eaton 1892.

5. Classbook & Classes should not be confused. Classbook is an attendance record of one or two classes. Classes is a list of names of those comprising the several classes of a church.

6. Class Records, usually wanting dates, are dated from external evidence only & such dating is not assumed to be exact.

7. Early Registers will also be found under the heading:

   New York City, General Records
   Methodist Episcopal Church of New York

   In the early days, records were also kept for the entire church in the city. However, in agreement with paragraph #1, these specific records preceded the General Records.

8. Obituaries will occasionally be found in those volumes containing an historical or pastoral record.

9. Officials, being appointed by the proper Quarterly Conference, may be found in the Minutes of the body, if no separate list is available.

10. Overlapping registers resulted from the popularity of starting a new volume with a new pastor or a new recorder, and thus the resulting necessity of copying the old records into the new.

11. Two Circuits were created in 1832, even before there were records for either East or West Circuit. Later separate records appeared, although some of the bodies (see #9 p. 9) continued meeting jointly for some years after the division.
